

Water Wastewater Worker

Hourly Salary: \$26.47-35.73 Hourly

Deadline: OPEN UNTIL FILLED

Applications will be reviewed on a weekly basis with interviews immediately following.
Position will be filled as soon as an ideal candidate is selected!

DISTINGUISHING CHARACTERISTICS

Under general supervision, performs a variety of routine to semi-skilled operations, maintenance and construction work, operates a variety of equipment in the construction, operation, repair, maintenance, and replacement of sewer, street, storm drainage systems, water distribution systems, wastewater collection systems and/or at treatment facilities.

ESSENTIAL FUNCTIONS

Duties may include, but are not limited to, the following examples.

- Conducts sewer line inspection for proper flow, restrictions, water and root intrusion, vector control, manhole and cover condition; removes debris from lines and manholes; cleans sewer line using hydro odder, hydro/vacuum unit and rod unit; operates video system to inspect sewer line.
- Performs tasks associated with the daily operations and services of a wastewater treatment plant including repairs and equipment maintenance; takes meter, gauge and control panel readings and observes variations in operating conditions; collects and performs routine biological and chemical tests/analyses; interprets information to determine processing requirements; learns to monitor and change flows.
- Repairs meters in the shop and at site; cleans and replaces parts and reassembles meters; lubricates pumps and motors as necessary.
- Operates front-end loader to compost sludge with wood chips and/or other organic matter or to clean sludge/composting beds; samples compost mix and records temperature.
- Paints and inspects valves, valve caps, fire hydrants, meter boxes and other water appurtenances as necessary.
- Fuels and washes mobile and/or stationary equipment, checks fluid levels and performs other routine maintenance tasks; prepares reports of work performed; assists in development of safety and operating procedures.
- Records residential and commercial water meters on an assigned route; enters meter reading in record books and logs; notes and records readings, prepares reports on maintenance, leaks and other repair issues.
